

Athletics (R)

The athletic program is an asset to the school system. Athletics help develop the character of those who participate. All students who participate as players or as spectators are given many opportunities to practice good sportsmanship. The officials and the opponents, both players and spectators, should always be treated with respect. Good conduct reflects as a credit for the individual and for the school. A more detailed description of the athletic program may be obtained through the office of the athletic director.
