

TESTING, DISTRICT AND STATE GROUP

It is the policy of the Edmond Public Schools to fully comply with provisions of state and federal law in administering state and district-mandated group tests.

Tests selected for district use must provide meaningful data that informs the community and assists the Board and site/district staff in assessing the effectiveness of teaching and student learning to support continuing program development and school/district improvement.

The Superintendent/Designee is to yearly review needs and requirements for group testing, both state and district-sponsored. The Board is to be informed of the district-wide testing schedule each year. Board approval is to be secured prior to effecting changes in the scope or content of district-wide, district-sponsored testing.

Guidelines for including students with disabilities in district and statewide assessments are available at each school site and at the office of the Director of Special Services.
