

CLOSING OF SCHOOL

School closure decisions due to extraordinary circumstances will be the responsibility of the Superintendent. Once determined, that information will be reported to local media and posted on District communications outlets, if possible by 5:30 a.m. the day of closure. When it is determined that a next day school closure will be necessary, the decision is to be communicated as timely as possible in order to assist parents in making provisions for child care.

While after school and evening activities may be cancelled, once classes are in session for the school day, early dismissal is discouraged.

Support and administrative personnel on twelve (12) month contracts are to report to work on days of school cancellations.
