

PURCHASING POLICIES

The Board of Education authorizes the Superintendent or his/her designee to establish purchasing and procurement procedures and practices consistent with this policy, federal and state law and generally accepted governmental purchasing practices.

The following policies will be followed by all employees of the District in purchasing supplies or material for day to day operations of the schools, equipment and furniture, and in the erection, improvement, remodeling or repair of school buildings. This policy applies to purchases made with local, state and federal funds.

When purchasing goods or services for Edmond Public Schools, diligent effort will be made to obtain the best prices possible without sacrificing necessary quality or service. In order to obtain the best prices possible, multiple bids will be conscientiously pursued. If multiple bids are not received, items will be rebid or a written explanation of circumstances will be provided to the Board of Education along with the “award of bid” recommendation.

No debt or financial obligation against the School District shall be incurred except through properly authorized policies and procedures. All purchases shall be made pursuant to a purchase order system, following established procedures and regulations and will comply with applicable state and federal laws and regulations of the Oklahoma State Department of Education.
