SUMMARY

The Edmond Public School District (the “District”) is issuing this *Invitation to Bid* for Installation of Playground Equipment at the following site:

Scissortail Elementary School

and is seeking competitive bids from Playground Equipment Installation firms with a proven record of performance who can demonstrate they have the management ability, financial resources, equipment and trained/experienced personnel to provide the necessary equipment, supplies and services to complete this contract.

The process will include the review and evaluation of methods and procedures that would be used to provide Installation of Playground Equipment at Scissortail Elementary School within the scope of this ITB. Past experience will also be judged by, but not limited to, the references of each Contractor. A major portion of the negotiations will include the financial terms of the contract. Contractors may be asked to make a presentation to a committee at EPS after submittal of a proposal.

After review of all proposals received, the District will award a contract to the Contractor or Contractors whose proposal best meets the needs of the District. If none of the proposals submitted properly meet the needs, the District reserves the right to decline all proposals and not award a contract at this time. The District also reserves the right to accept bids from more than one Contractor.

The successful bidder shall supply all supervision, supplies, labor, training and equipment required to accomplish the Installation of Playground Equipment at Scissortail Elementary School(the “Services”) detailed within this Invitation to Bid. The successful bidder will be required to perform the Services independently, in as effective and efficient manner as possible in accordance with the specifications described herein. If awarded, the Contract will commence or about February 15, 2022 and will end no later than August 13, 2022.

While price is important, quality of service is an equally important part of this contract. The bid award will be based upon a combination of price and proposed playground components. Contractor is encouraged to use the entire budget for the site. The Contractor who can provide the best overall playground structures, borders, surfacing, and design, while staying within the budget for each school, will be awarded the bid for that school. Contractor’s proposed staffing plan, along with references and proposed standards and procedures will be considered in evaluating proposals. Time is of the essence.
